Lab Options for your blood work

1. You may bring the lab slip you receive from Dr. Petteruti to any lab of your choice that accepts your health insurance. We cannot guarantee that all blood tests ordered will be covered by your health insurance. You may contact your health insurance prior to having the blood drawn to verify coverage.
2. You may have your blood drawn here by our staff and sent out to **AccuLab**. There is a **\$75.00** phlebotomy and processing fee associated with this option. **AccuLab** will bill your health insurance for the testing. In the event that a test is not covered by your health insurance you will receive a bill. Upon receipt, kindly bring it to our office and we will take care of it for you. If you have Medicare or Cigna as your primary health insurance, unfortunately you may not use this option.
3. If you have a high deductible plan or no health insurance, you have the choice to contact local labs for pricing or utilize **AccuLab**. Pricing will vary based the blood tests ordered. All prices will be disclosed to you prior to your blood draw and payment will be due that day, including the **\$75.00** phlebotomy and processing fee.
